Sister Efia, I just received the information on the upcoming UPR. I certainly want to be included in the reporting, as a long held political prisoner. With time short, I will just give you a brief update on my situation. I am in my 26th year of captivity. In 2008, I began my last consecutive sentence (53 years from the U.S. District Court for the Eastern District of NY {Brooklyn} - conspiracy to force the U.S. government to end its war policy and bombing conspiracy). I am now being held in the U.S. penitentiary in Tucson, Arizona. I have parole eligibility in about 8 years. I will be 62 years old this weekend. While the BOP and U.S. government overall, does not recognize p.p.'s, they officially list me(us) as 'domestic terrorists'. I have one co-defendant left in prison - Tom Manning, who is in the U.S. pen. in Coleman, Florida. All my other co-defendants (Ohio-7) have been paroled years ago, except for Richard Williams, who died in prison in 2005. Jericho has information on me as well.
